The Magic of Advent

Don't miss out on the Christmas festivities in Zagreb!

The warmest Christmas story is happening in Zagreb once again. Snowflakes, twinkle lights and Christmas carols make the city magical every December.

This year, the city of Zagreb prepared something new: across the whole town, Zagreb has hidden our favourite childhood friends: toys! These traditional toys, once made in Zagreb, were on every child's Christmas list—and now, thanks to an app, they're making their way back to our parks, yards, and homes, creating truly unique Christmas cards.

This experience is interesting and really easy to try: all you need is the Equinox XR app to open your "toy box". After that, just start walking through Zagreb's Advent to find surprise boxes and open them by tapping on the screen. You'll receive a

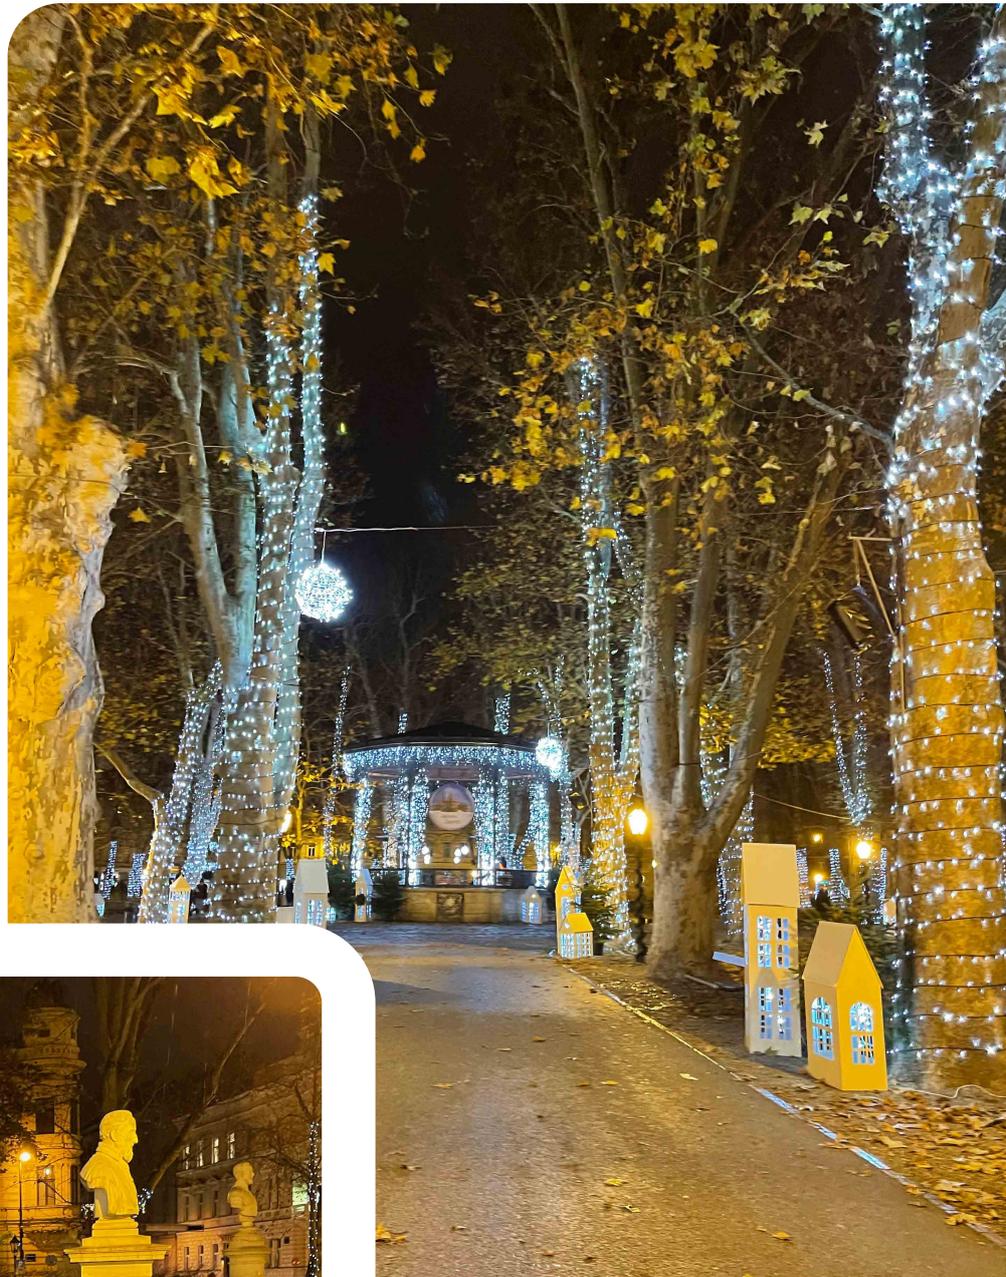

toy that can be stored in your toy box and placed in any other location, so you can take photos!

The Christmas market is full of magical activities, as it always is! With bands performing in the music pavilion, Zrinjevac will be illuminated by thousands of twinkle lights, while an ice skating fairytale is just a few blocks away. If you visit Strossmayer Square, you'll find mistletoe, ready for a kiss from your loved one!

There will be cute wooden houses set up all over the city, with the majority located on Ban Josip Jelačić Square and the European Square. Oversized toys and nutcrackers will keep

you company as you sip mulled wine and snack on fritters. Delicious food awaits in the Upper Town as well, bratwurst and germ dumplings are a perfect duo, especially when paired with the magical atmosphere of the “Stross” and Gradec plateau. Aside from the fantastic food, Zagreb’s Upper Town is also an ideal location for taking stunning photos.

This year, the Christmas spirit took over a brand new location in the city - the park of the Academy of Fine Arts, where this year’s Advent officially opened on Nov. 27th. Nipplepeople played at the opening, while throughout Advent there will be a rich and varied music program as well as delicious food on offer. There are also many other attractions here, such as the “Plati i nosi” painting exhibition and numerous culinary workshops that are sure to be entertaining.

The ambience will be adorned with thousands of twinkle lights, with sculptures by 12 great Croatian sculptors on permanent display.

Have a wonderful time and believe in the magic of Christmas in Zagreb, a magical, romantic, idyllic, and certainly magnificent story!

Opatija is a destination not to be missed, even in the winter. And this year, the city is decked out in its winter attire and ready to greet you with an array of Advent surprises.

Opatija will be a dream destination this winter as well, certainly due to its tourist tradition that stretches as far back as 200 years!

The Festival of Chocolate, which will feature the best domestic and international producers of original chocolate desserts, will kick off Advent festivities.

Thousands of twinkle lights and Christmas decorations are scattered throughout Opatija's famous locations, including St. Jacob's Park, Angiolina Park, Slatina, Lungomare, the Summer Stage, the town market, and Volosko.

As you walk through all of these locati-

ons, you can sip on the mulled wine and drink hot chocolate.

Angiolina Park, Opatija's most beautiful park, is located in the heart of this fairytale city. As you walk through the dwarf forest, giant nutcrackers and a candy house await you, while thousands of twinkle lights will delight almost everyone. Take a break in front of the Juraj Porer Art Pavilion, also known as the town's winter garden, where you can enjoy the ex-

cellent food selection as well as the sea view.

Varaždin's Fairytale Advent!

The Varaždin Advent is located in the heart of the historic centre and has a diverse, fun and magical atmosphere.

Christmas cookies and mulled wine will be available at several locations, to where a Santa Claus train will drive you. The Varaždin Cathedral will be decorated with a large Advent wreath, with one Advent candle lit each week.

day. The highest number of species recorded during a single one-day visit was 93. Furthermore, this nature park provides recreational fishing opportunities on natural and artificial canals, as well as on the Danube itself.

Kopački rit has a variety of educational programs and multimedia exhibitions where you can learn new and interesting things about nature and the Baranja region. In the park, there's also the beautiful Tikveš Castle Complex from the 19th century, but it's currently under renovation and sadly cannot be visited.

The fishing village of Kopačevo, on the outskirts of the nature park, is famous for its Kopačevo ground pepper, the best spice for fish stew and other Baranja specialties that you can sample in this small village.
